General Information

Short summary

Czech company is a spinning mill that focuses on yarn production. They mainly deal with linen blends and regenerated fibres and thus follow current trend of a return to natural fibres and sustainability. The company has the OekoTex eco-certification for textile products. The Czech company is looking for distributors for international markets.

Full description

The Czech company (a spinning mill) was founded in 1896 and over the time began to establish itself on the Czech and European markets. The company is a renowned manufacturer of a wide range of natural and man-made fibre yarns. The fibres are processed either 100% natural or blended (up to four components). The company has certification OekoTex label for textile products.

In the range of natural fibres, the company processes cottonized flax, wool, alpaca, hemp, coloured or modified flax. In the range of man-made fibres there is a choice of VS modal, bamboo, viloft, PES regenerate, staple, acryl and others. As for blends, the spinning mill specializes mainly in spinning of blends with linen (VS/linen, cotton/linen, PES/linen). According to the needs and wishes of the customer they mix blends in the required mixing ratio of raw materials. Apart from yarns, the company's products include furniture and upholstery textiles, home textiles, clothing fabrics, technical fabrics, bookbinding linen, terry goods, flat and circular knits, piece knits and the company also focuses on

the production of mops and strings, ropes and cables.

The company is looking for distribution partners with whom it could establish cooperation towards foreign markets, preferably across Europe, South America and Asia. Potential partners should be involved in the automotive and furniture industry, however welcome are partners from any industries that are interested in.

Advantages and innovations

- High quality materials (natural fibre yarn)
- Fast delivery of services and products
- Varied mixes of materials tailored to customer specifications.
- Client individual approach (production of yarns according to customer requirements)
- Delivery to Global buyers
- Newest machinery and skilled workers

Technical specification or expertise sought
