General Information

Short summary

The Romanian company, with experience accumulated in almost 10 years of activity, is specialized in international freight transport, offering high quality services.

Full description

The company was established in Romania in 2014 and since then has grown its team, fleet and business every year. It provides transportation and logistics all around Europe through a fleet of 125 vans. The fleet vans are of 3,5 tons and have a cargo loading capacity up to 1000 kg. The company transports a variety of goods, such as: auto parts, electronics, household appliances, cosmetics, perfumery, medical equipment, first aid kits. Its objective remains unchanged, namely to offer maximum flexibility, dynamism and agility, so that it can best meet client requirements. The company is looking for new partners in the European Union, Switzerland and Norway willing to outsource their transportation and logistics.

Advantages and innovations

The entire fleet is GPS tracked and each client can have access in real time to the movement of goods. The client goods are safe, benefiting from CMR insurance that covers up to 1,500,000 EURO. The company offers 24/7 assistance for every shipment it carries. It uses the integrated processes of a time-independent freight network and intelligent software. This helps the company to quickly adapt in any situation that may happen during transport.

Partner Sought

Expected role of the partner

The company expects from the business partner: seriousness, transparency, predictability, the clear expression of the needs of the transport of goods and consistency in carrying out the concluded transport contracts. It can be any entity (company, institution etc) in need of freight transportation in Europe. The company remains flexible to the potential partner requirements regarding goods to be transported (except medicines or perishable goods).
