General Information

Short summary

The Romanian company seeks to partner with other organizations to share best practices and develop innovative solutions for the efficient and sustainable delivery of medical services, including the acquisition of medical equipment under commercial agreement.

Full description

The company was founded in 2012. Initially, the clinic only offered outpatient specialty services, but over time it expanded its range of services to include medical rehabilitation, day hospitalization, radiology and medical imaging, functional explorations, and laboratory tests.

Here is a description of the services offered by the company and the products and services in this field that the company wants to improve:

- Outpatient specialty: The clinic offers a wide range of specialty medical services,
- Medical rehabilitation: The clinic offers medical rehabilitation services for a wide range of conditions,
- Day hospitalization: The clinic offers day hospitalization services for a wide range of surgical interventions and

medical procedures,

-Radiology and medical imaging: The clinic offers a wide range of radiology and medical imaging services,

-Functional exploration: The clinic offers functional exploration services for a wide range of conditions,

-Laboratory tests: The clinic offers a wide range of laboratory tests,

The company main goal is to make new cooperations with external companies to improve the efficiency of the company regarding the resources in the field of human health under commercial agreement.

The Romanian company can represent both SME and large companies that have ambition to expand their sales outside their own market.

The company is interested in cooperation services for efficient use of resources in the field of services for human health, but also in the exchange of good practices for the purpose mentioned above.

Advantages and innovations

- experience more than years 10 years in the field of accommodation

- customer satisfaction through quality

The Romanian company wants to treat the problems with the human health very seriously, and she wants collaborators who can help her in this field.
