# Exploring the Limitless... Potential of Solar Energy

## Invitation to Participate in SONEX 2024 17<sup>th</sup> Edition of the Solar Near East Exhibition and Forum

We are honored to extend an invitation to leading companies, firms, institutions, and organizations specializing in solar technology and renewable energy to be part of SONEX 2024, the 17th edition of the Solar Near East Exhibition and Forum.

### **Event Details:**

**Date:** From 3rd to 6th June 2024.

**Halls of JIEC Amman – Jordan.**

### **About SONEX:**

SONEX, the Solar Near East Exhibition, is a leading annual event that sheds light on solar technology and its myriad applications including:

-  PV Modules, PV Inverters & Control
-  Solar Thermal Systems
-  Solar Boilers, Pumps, and Water Heating Systems
-  Smart Grid and Metering
-  Energy Storage and Solar Batteries
-  Solar & LED Lighting, including Street Lighting
-  Wind Generation, Green Energy, and E-cars Charging Units

The Near East and Middle East are witnessing substantial growth in their shift to renewable energy. With over 300 sunny days a year, a high caliber of professionals, and numerous dedicated organizations and institutes, the region is poised for a renewable energy revolution.

**Parallel Event:** SONEX 2024 will be held alongside JIMEX 2024. More details and videos can be reviewed at [www.SONEX.jo](http://www.SONEX.jo) and [www.JIMEX.jo](http://www.JIMEX.jo)

### **Highlights from the Previous Event: SONEX 2023**

SONEX, initiated in 2006, is organized concurrently and successfully with JIMEX Exhibition, this collaboration occurs with the participation of national and international renewable energy organizations and institutes. Over 25,000 trade visitors and more than 100 exhibitors in solar & renewable energy from global destinations and 250 exhibitors in the whole event.

Major pavilions included India and China, with other key exhibitors from Taiwan, Czech Republic, Turkey, UAE, Saudi Arabia, and Jordan.

Should you need more information or assistance regarding your participation? We are at your service. We eagerly anticipate your presence and contributions to SONEX 2024.

Warm regards,

**Sincerely**

**Organizing Committee JIMEX, SONEX & JOPEX Exhibitions**

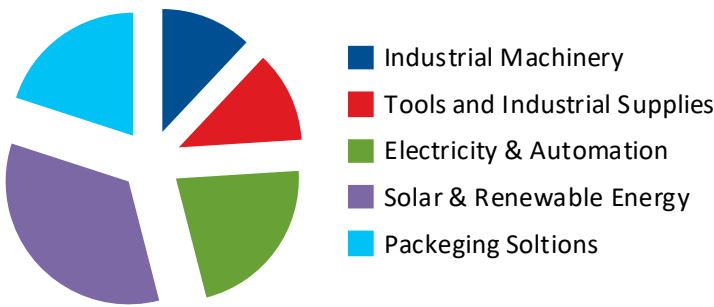

# Brief Post Show Report SONEX 2023

Presenting the highlights of SONEX 2023, the 16th Edition of the Solar Near East Exhibition and Renewable Energy Forum: Sponsored by His Excellency the Prime Minister, the event took place from June 5 - 8, 2023, at the modern JIEC – Halls of Jordan Center for International Exhibitions, a recent annex of the MECCA Mall (Gate 3), in Amman, Jordan.

## Major Sectors Chart SONEX - JIMEX 2023

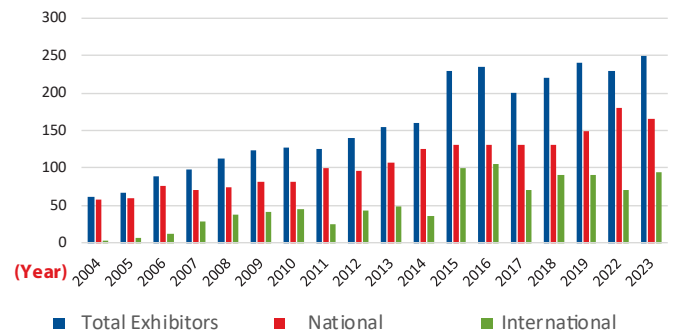

### Machinery, Electricity & Solar / Renewable Energy

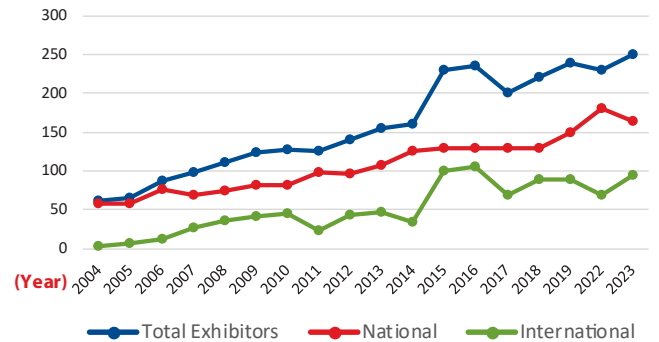

**Exhibitor Insights:** A remarkable 100 specialists in solar and renewable technologies joined us. Together with JIMEX, the event housed 250 exhibitors.

**Exhibitor Nationalities:** Exhibitors spanned from India, China, Czech Republic, Turkey, UAE, to Jordan.

## SONEX - JIMEX Exhibitors since 2004

## Development of Exhibitors since 2004

## Save the Date:

Gear up for SONEX 2024, slated for June 3-6, 2024, at JEIC, Amman, Jordan.

Let's reconvene for another innovative rendezvous!

In tandem with JIMEX 2024, SONEX 2024 championed the 17th Solar Near East Exhibition and Forum.

**Visitors:** The event was honored by the presence of 25000 visitors including 18,000 trade aficionados from various industries.

**Geographical Spread of Attendees:**

Our reach was global, with participants from the Gulf, European territories, Asian lands, and the Middle East.

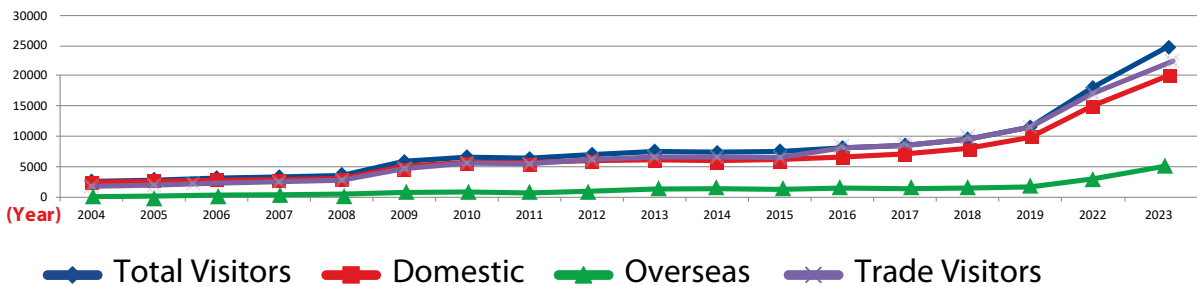

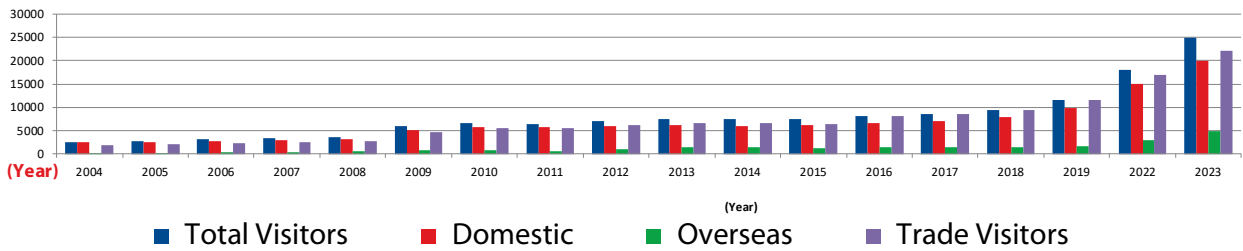

Furthermore, SONEX 2023 stood out with its dedicated forum, a collaboration with esteemed professional bodies and organizations.

**A Glimpse into SONEX 2024**

The next 17th edition will spotlight Solar technology, PV integrations, thermal methodologies, water heating innovations, environmental tech, green energy advancements, e-vehicle systems, and the expansive world of renewable energies.

**SONEX - JIMEX Visitors Development since 2004**

**JIMEX 2023 - A Look Back**

Reflecting on JIMEX 2023, the 18th International Machinery, Electricity, and Energy Exhibition:

Under the esteemed patronage of *His Excellency the Prime Minister*, the event illuminated the period between June 5-8, 2022, at JEIC in Amman.

**Exhibitor Tally:** 250 exhibitors made their mark, featuring over 1000 global brands, with an international count of 90.

**Exhibitor Origins:** Our exhibitor base spanned from countries like India, China, Taiwan, Czech Republic, Turkey, Saudi Arabia, UAE, & Jordan.

**Attendee Statistics:** We proudly hosted 25,000 attendees, with 22,000 being trade specialists from diverse fields like energy, utilities, consulting, and engineering.

**Visitor Global Reach:** Our audience comprised of representatives from the Gulf, Europe, Turkey, India, China, and the broader Middle East.

**JIMEX 2024 Forecast:** Mark June 3-6, 2024, for the next JIMEX. Supported officially by the Jordan Engineers Association, the event will return to JEIC, Amman, focusing on pivotal sectors like machinery, energy, water tech, packaging, and more.

# Solar Near East Forum 2024

The Forum is a major activity of this event and it is arranged to be in conjunction with up-to-date technology and with exhibiting sectors; it is contributed to solar technology, the hot topic of energy storage, e-cars charging and energy efficiency & management. This Forum was organized in the last 16 editions since 2008 under the patronage of His Excellency the Minister of Energy and Mineral Resources in cooperation with international organizations and institutes.

The Forum will focus on the huge demand and trend for using the solar energy in different applications and the raised challenges and affectness on the the public network and economy.

This Forum will be organized in cooperation with official organizations and institutes.

Companies and organizations will have the opportunity during this event to arrange professional presentations linked to the related topics of the fair and forum. The presentations will be in accordance with the forum program and subject to the approval by the forum committee.

## Exhibiting Topics:

- A) Solar Technology;
- B) PV Modules;
- C) Solar Thermal Systems
- D) Solar Boilers and Pumps
- E) Solar Water Heating Systems
- F) Smart Grid and Smart Metering
- G) Environment Technology
- H) Green Energy and E-cars chargers.
- J) Solar Inverters and control
- K) Solar Batteries and chargers
- L) Renewable Energy and Energy Saving
- M) Energy Storage and Hydrogen
- N) E-cars Charging

## Be Partner & Sponsor

The organizers are eager to take care for all small details related to the event and will facilitate the participation in this event.

The organizers are offering easy and fruitful sponsorship packages as real opportunities to enhance the

participation of the exhibitors and the promotion trademarks.

The sponsorship opportunities are diverse and vary in price and style, to appeal to a wide range of exhibitors who wish to raise their role at the show and directly generate sales from the visitors.

Details of sponsorship packages are upon request.

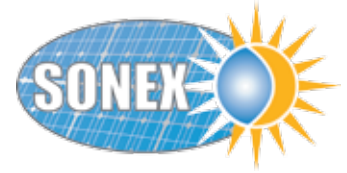

## Construction & Decoration of Exhibiting Stands:

**Golden Gate** has been assessed and certified to meet the requirement of ISO 2001.9001 extended to ISO 2008.9000 for exhibitions organizing and decoration design services. Golden Gate can offer special exhibiting decoration matching all requirements of the exhibitors.

# Jordan is the right and safe country for exhibiting and investment

*"Jordan may be small, but it's rich in terms of its strategic assets. Re-envisioning these assets is vital for our growth.*

*Jordan is a gateway for regional and world trade and business."*

**His Majesty King Abdullah II**

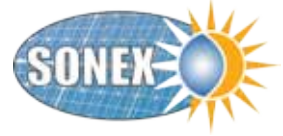

The Ministry of Energy and Mineral Resources has unlimited plans to install PV & Wind Parks and to encourage the people to build PV systems in their houses, farms, trade buildings, hospitals, mosques, churches, schools, universities, also as IPP Projects. The plan of the Ministry is to establish 2 GW PV Parks in the following years in addition to more than 2GW wind parks.

- Jordan has high quality sunshine for more than 300 days a year.
- Jordan is paying heavy annual invoice for the imported fuel / energy, exceeding US \$ 4 Bill.
- Jordan is depending 90% of the required energy on importing this huge demand from other countries.
- The housing style in Jordan is more horizontal, allowing using unlimited space to install PV modules.
- Jordan is rich with skilled manpower and can build an engineering base for renewable industries.
- Douzens of specialized engineering companies and institutes are active in solar and renewable energy in Jordan
- The Jordanian laws are supporting the solar applications renewable energy in industry. Most of these systems are exempted from custom duties and sales taxation.
- Second language in Jordan is English and international exhibitors can easy communicate with the visitors and customers.
- Jordan is a gateway for regional and world trade & business
- Jordan is a middle country located between important big markets: Iraq, Syria, Lebanon, Palestine, Egypt & Saudi Arabia
- Jordan has strong reliable banking system and furthermore is the safest country in the region.

## Why to exhibit in SONEX??

- SONEX is Solar Near East Exhibition targeting Near East Markets.
- SONEX is organized in the heart of Near East Countries : Jordan Leading Country in using solar energy.
- SONEX is a specialized event with high quality attendance.
- More than 25 thousands of trade visitors are attending this event.
- More than 100 specialized solar & renewable exhibitors are participating in this event.
- The organizers are taking care of any small concern of the exhibitors and visitors.
- The participation fees and cost are very reasonable comparing with the fruitful benefits.
- SONEX is the right place to promote the solar systems and renewable systems.
- SONEX is organized in timing and conjunction with the biggest energy engineering exhibition in Jordan: JIMEX
- SONEX is well known in Jordan and among those interested and active in solar technology, as it is organized successfully as an annual event since 2007.
